INTERESTS

- PIANO
2 years of studies
- FOOTBALL
Football player of REA Women Soccer Team
- MARTIAL ARTS
Ju-Jitsu/Brazilian Ju-Jitsu
- READING BOOKS

EDUCATION

- **Master’s Program in Forensic Science** (2025-present)
Uppsala University, Sweden
- **B.Sc. in Biomolecular Science and Biotechnology** (2020-2024)
Department of Biology, University of Crete, Greece
- **General Lyceum (2017-2020)**
General Lyceum of Vamos

LAB EXPERIENCE

- Department of Medical Sciences, Uppsala University – Molecular Precision Medicine Group, SciLifeLab
MSc Thesis Researcher – Molecular Precision Medicine (August 2026- to present)
Research project under the supervision of Maria Globisch and Nathan Zivi, within the Jessica Nordlund research group. Characterization of transcription factor DNA-binding profiles in acute lymphoblastic leukemia (ALL) using mammalian-optimized DNA Affinity Purification Sequencing (DAP-seq).
Laboratory techniques: DAP-seq, DNA/RNA extraction, leukemic cell culture and chemotherapy treatment, Western blotting, immunofluorescence/immunocytochemistry and fluorescence microscopy. Next-generation sequencing data analysis and interpretation of transcription factor binding profiles and their association with gene regulation.
- Municipal Water and Sewerage Company of Rethymno, Greece
Laboratory Intern – Analytical Laboratory, DEYAR (July-August 2026)
Lab work under the supervision of Biologist Xrysoula Vogiatzi.
Gained practical experience in regulated laboratory workflows, chemical and microbiological analysis in drinking water and wastewater and analytical data management within an ISO/IEC 17025:2017-accredited laboratory. Strengthened skills in scientific writing through the independent development of a comprehensive technical report on drinking-water sampling strategy and environmental monitoring..
- Department of Medicine, University of Crete
BSc Thesis Researcher Laboratory of Translation Oncology(August 2023-June 2024)
BSc Thesis Researcher Laboratory of Anatomical Pathology(September 2023-June 2024)

Research work under the supervision of Maria Papadaki.
Comparative study of Trop-2 expression in the primary tumor, metastatic foci and circulating tumor cells in the peripheral blood of patients with triple-negative breast cancer.
Laboratory techniques used: immunofluorescence, cell culturing, fluorescence microscope, immunocytochemistry

- Department of Medicine, University of Crete
Special Parasitology, Zoonoses & Geographical Medicine Laboratory Units (July 2022)
Research and volunteering work under the supervision of Niki Thalassinaki.
Microbiology analysis in food and water hygiene, microbiology analysis of blood samples for Brucellosis and other zoonoses.
Laboratory techniques used: bacterial cultures and Real-time PCR.

RESEARCH PROJECTS

Assessment of TROP2 and PD-L1 expression on circulating tumor cells (CTCs) of patients with triple-negative breast cancer (TNBC). Annals of Oncology, 36:S295-S296, September 2025. DOI: 10.1016/j.annonc.2025.08.658

Comparative analysis of TROP2 expression in tumor tissues and circulating tumor cells (CTCs) in the peripheral blood of patients with triple negative breast cancer. Clinical Cancer Research, 31(12_Supplement): P4-O5-27, June 2025. DOI: 10.1158/1557-3265.SABCS24-P4-O5-27

CONGRESS & SEMINAR

- **Food Safety (HACCP) & Food Quality: ISO 22000 & ISO 9001 Standards** (April 2025-November 2025)
- **Bioinformatics: Analysis and Practical Applications** (November 2024-April 2025)
- **Molecular Analysis for Precision Oncology**, School of Medicine University of Crete (February 2024)

Member of the host Laboratory team.

- **2nd Webinar Targeting Trop-2: from theory to clinical practice.** (December 2023)
 - **Molecular and Cellular Targets in Cancer Therapy.** (November 2023)
 - **Oncology Lessons, Congress of Clinical and Translation Oncology 2023** (November 2023)
-

VOLUNTEER WORK

- Decorating the Oncology Clinic of children in University hospital of Crete and gathering gifts for the children as a member of Ergotelis women soccer team (December 2022)
- Blood and bone marrow donor as a member of Aimodosia team (October 2021-to date)

SCHOLARSHIPS

- Athletic Scholarship Distinction from Jiu-jitsu Greek Federation and Ministry of Sports and General Secretariat of Sports Department of Athletics and Combat Sports allowing the entry in every Education Institution (October 2019)

SOCIAL SKILLS

- **GREEK**

Mother Language

- **ENGLISH**

Proficiency of Michigan University

IELTS Academic

TECHNICAL SKILLS

- Immunofluorescence
- Use of Fluorescence Microscope
- Cell Culturing
- Genetic Data Analysis in R Studio
- Python
- Basic Linux/Unix
- Microsoft Office Word & Excel
